

Tenant Qualification Requirements

Thank you for considering one of our properties for your future home. We've developed our standards using a research-based approach, investigating common industry standards and practices, HUD and Fair Housing guidelines, and emerging research in factors that most likely predict a successful relationship between residents and property managers.

The following standards will be applied equally to all applicants, regardless of source of income or any other protected class. Note that once we begin to process your application, the application fees are nonrefundable.

1. **At least one adult must view the rental unit** before an application can be approved.
 - a. For self-service showings, we have a pre-screening process that includes collection of Photo ID and verification of information provided. Otherwise, units may be viewed without appointment or pre-screening during any open houses if they are offered.
2. We require a **completed application from every adult** who will be residing in the property:
 - a. Fully completed application. Any omissions may cause denial.
 - b. Application fee. (40\$ per adult, cash or credit card)
 - c. Note that the pet screening process may have an additional fee. Please see section about pets/animals below.
3. We require **proof of identity and social security number** with every application:
 - a. Valid photo identification issued by any state or federal authority in the US. You can submit a copy of each ID with the application, or we will make a copy of your ID at the time we collect your application. However, we will need to physically verify the ID before lease signing.

7. Credit

- a. Generally, a minimum averaged credit and/or renter score of **620** is required. See note about roommates/couples/families below for information about averaging.

- d. No open bankruptcies.

8. Criminal Record

Criminal records are evaluated via an individualized assessment that attempts to take into account mitigating factors, facts and circumstances surrounding the criminal conduct, age at time of conduct, nature and severity of conviction, and the amount of time that has passed since the conviction.
- b. We weigh a criminal record using this general formula:
 - i. When a criminal conviction occurred, we take into account both the original charges and the convicted charges. We attempt to understand the facts about the conviction, and any documentation you have that helps us understand the situation should be included with your application.
